## CONDITIONS OF USE

### Product to be used:

NUFARM REGENT 200SC INSECTICIDE  
PLUS OTHER REGISTERED PRODUCTS

Containing: 200g/L FIPRONIL as their only active constituent.

### Directions for Use:

Crop	Pest	Rate
Cotton and Pigeon pea trap/refuge crops	Australian plague locust	6.25 mL/ha

### Critical Use Comments:

- Apply in a minimum volume of 20L/ha by aerial application or 50L/ha by ground rig.
- Apply a maximum of 2 applications per crop. If a second application is required a minimum re-treatment interval of two weeks must be observed.
- Apply at first appearance of locusts.

### Withholding Period:

Cotton: DO NOT harvest for 4 weeks after application  
DO NOT graze or cut for stockfood.

Pigeon pea: DO NOT graze or cut for stockfood.  
DO NOT allow harvested seed to be provided for human or animal consumption.  
(Any harvested seed must be used for sowing purposes only)

### Jurisdiction:

NSW, QLD only

### Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

DO NOT allow treated pigeon pea trap crops to be made available for human or animal consumption. All harvested seed from treated pigeon pea trap crops may only be retained and used for sowing purposes.
