Dichlorvos 1140
Insecticide

ACTIVE CONSTITUENT: 1140 g/L DICHLORVOS
(an anti-cholinesterase compound)

GROUP 1B INSECTICIDE

For the control of insects infesting stored cereal grains for on farm use.

IMPORTANT: READ THE ATTACHED LEAFLET BEFORE USING THIS PRODUCT.

Contents: 500 mL
  2.4 Litres
  20 Litres

Nufarm Australia Limited
ACN 004 377 780

Fax: (03) 9282 1001
STORAGE AND DISPOSAL
Store in locked room or place away from children, animals, food, feedstuffs, seed and fertilizers. Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should NOT be burnt.

SAFETY DIRECTIONS
Product and spray are poisonous if absorbed by skin contact, inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. DO NOT inhale spray mist. Obtain an emergency supply of atropine tablets 0.6 mg. When opening container, preparing spray and using in enclosed areas wear cotton overalls buttoned to the neck and wrist, washable hat, elbow-length PVC gloves, goggles and half face piece respirator with combined dust and gas cartridge (cannister). If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking wash hands, arms and face thoroughly with soap and water. After each day’s use, wash gloves, goggles, respirator and if rubber wash with detergent and warm water and contaminated clothing.

FIRST AID
If swallowed, splashed on skin, or inhaled, contact a Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

MATERIAL SAFETY DATA SHEET
For further information refer to the Material Safety Data Sheet (MSDS).

CONDITIONS OF SALE
“Any provisions or rights under the Trade Practices Act 1974 or relevant state legislation which cannot be excluded by those statutes or by law are not intended to be excluded by these conditions of sale. Subject to the foregoing, all warranties, conditions, rights and remedies, expressed or implied under common law, statute or otherwise, in relation to the sale, supply, use or application of this product, are excluded. Nufarm Australia Limited and/or its affiliates (“Nufarm”) shall not accept any liability whatsoever (including consequential loss), or howsoever arising (including negligence) for any damage, injury or death connected with the sale, supply, use or application of this product except for liability which cannot be excluded by statute.”

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**WITHHOLDING PERIOD:**

**CEREAL GRAIN:**  
DO NOT USE TREATED GRAIN FOR HUMAN CONSUMPTION (OR STOCKFEED) WITHIN 7 DAYS OF TREATMENT.  
DO NOT OUTTURN TREATED GRAIN WITHIN 7 DAYS OF TREATMENT, AT 6PPM.  

DO NOT USE TREATED GRAIN FOR HUMAN CONSUMPTION (OR STOCKFEED) WITHIN 28 DAYS OF TREATMENT.  
DO NOT OUTTURN TREATED GRAIN WITHIN 28 DAYS OF TREATMENT, AT 12PPM.
GENERAL INSTRUCTIONS
Before opening, carefully read Directions for Use, Precautionary Statements, Safety Directions and First Aid Instructions.
This product is suited to control established infestations of grain insects because of its rapid diffusion through the grain mass. When applying as a surface treatment the spray operator should wear protective clothing, rubber gloves and an agricultural respirator. When spraying is carried out in confined spaces such as silos, the use of goggles, respirators and protective clothing is recommended.

INSECTICIDE RESISTANCE WARNING
GROUP 1B INSECTICIDE
For insecticide resistance management Nufarm Dichlorvos 1140 is a Group IB insecticide. Some naturally occurring insect biotypes resistant to Nufarm Dichlorvos 1140 and other Group IB insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Nufarm Dichlorvos 1140 or other Group IB insecticides are used repeatedly. The effectiveness of Nufarm Dichlorvos 1140 on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Nufarm Australia Limited accepts no liability for any losses that may result from the failure of Nufarm Dichlorvos 1140 to control resistant insects. Nufarm Dichlorvos 1140 may be subject to specific resistance management strategies. For further information contact your local supplier, Nufarm Dichlorvos 1140 representative or local agricultural department agronomist.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET CROPS
DO NOT apply under weather conditions, or from spraying equipment, that may cause spray to drift onto nearby susceptible plants/crops, cropping lands or pastures.

PROTECTION OF LIVESTOCK
Dangerous to bees. DO NOT spray any plants in flower while bees are foraging.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
Dangerous to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL
Store in locked room or place away from children, animals, food, feedstuffs, seed and fertilizers. Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should NOT be burnt.

SAFETY DIRECTIONS
Product and spray are poisonous if absorbed by skin contact, inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. DO NOT inhale spray mist. Obtain an emergency supply of atropine tablets 0.6 mg. When opening container, preparing spray and using in enclosed areas wear cotton overalls buttoned to the neck and wrist, washable hat, elbow-length PVC gloves, goggles and half face piece respirator with combined dust and gas cartridge (cannister). If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking wash hands, arms and face thoroughly with soap and water. After each day’s use, wash gloves, goggles, respirator and if rubber wash thoroughly with detergent and warm water and contaminated clothing.

FIRST AID
If swallowed, splashed on skin, or inhaled, contact a Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

MATERIAL SAFETY DATA SHEET
