Emblem™ Fungicide Now Approved for Vegetable Greenhouse Use

Morrisville, NC – Through all stages of production, Emblem™ is a go-to product for foliar, stem and root diseases providing defense and control with low use rates and an easy-to-use liquid formulation. Now approved for use in vegetable greenhouses, this versatile fungicide demands the number one spot in the rotation for disease management.

The new expanded label includes brassica leafy vegetables (such as broccoli, cauliflower, and kale), herbs (such as basil, chive, cilantro, parsley and rosemary), and leafy vegetables (such as arugula, lettuce and swiss chard).

As a leading supplier to the Greenhouse and Nursery Ornamental market, Nufarm's US Greenhouse and Nursery team delivers a portfolio of products meeting the value, efficacy, and innovation demanded by the market to solve the daily pest and disease issues you face. Trusted products such as Cleary's 3336 brand, Affirm, Safari, Tristar and Overture have been your go to products for years and innovative solutions such as Emblem, Cuproxat and Minx are more recent Nufarm solutions. An experienced group of market managers with grower expertise, an attentive customer service team, coupled with an active technical research and development group, all with a mission to solve your problems, sums up the personality of your Nufarm team. We are here to help you grow a better tomorrow, today.
