Nufarm announces retirement of National Ornamental Manager Arden Bull

Alsip, Illinois (October 27, 2017) – Nufarm announced the retirement of long-serving National Ornamental Manager Arden Bull. Arden’s career spanned 47 years in agriculture and specialty crop protection, including 28 years of turf, ornamental, greenhouse, and nursery technical sales. Arden has led ornamental sales at Nufarm Americas, Inc. for the past 12 years and cultivated trusted relationships with greenhouse and nursery growers and key university and private researchers across the US.

“On behalf of Nufarm, I thank Arden for his vision and commitment to Nufarm, the ornamental market, and the many greenhouse and nursery customers he supported,” said Blaine Pinkerton, director, Turf and Ornamental Sales. “Arden has had a significant impact on our success and our customers’ livelihoods. We will always regard his achievements with gratitude and wish him the happiest retirement.”

Arden plans to spend more time with his wife, Laska, and their family. He envisions his time will include more fishing with grandsons and attending the dance events of his granddaughters. He also anticipates more travel, bike rides, woodwork, time to go on a mission trip, and give back to his community at the local Unity House and Elder Care Home.

“I want to thank Nufarm for believing in me and allowing me to share my vision for the ornamental market. The expansion and growth has been great challenge, and it has been a great ride for me climbing to Number One!” said Arden. “I will always look fondly on the experience and the professional and personal relationships I’ve gained,” said Arden.

Nufarm concurs that it has been a great ride. The company will remain dedicated to providing a top-notch team of reliable Turf and Ornamental experts. It will also remain thankful to Arden Bull. Ornamental customers seeking assistance should contact Greenhouse Customer Manager Brian Rund at brian.rund@nufarm.com.

Anyone who wishes to bid Arden a farewell and happy retirement can do so by Nov. 30th at <https://www.kudoboard.com/boards/D34EmHka>

As a leading supplier to the greenhouse and nursery ornamental market, Nufarm's US greenhouse and nursery team delivers a portfolio of products meeting the value, efficacy, and innovation demanded by the market to solve the daily pest and disease issues you face. For a complete list of Nufarm professional GHN products, visit www.nufarminsider.com. Nufarm Americas, Inc. formulates products that serve the agricultural, professional turf, vegetation management and forestry markets in the United States.
