

Authority now registered for use before Chickpeas in Saskatchewan.

Pack sizes:

4 x 3.79 L jugs per case (18 cases/pallet)

Use Rates:

Use on medium or fine textured soils only. NOT FOR USE ON COARSE (Sand, Loamy Sand) TEXTURED SOILS.

	Soil pH	
	< 7.0	> 7.0
mL / ac	118	89
Acres / jug	32	43

Do not use on soils with a pH of 7.8 or greater.

Do NOT apply to fine textured soils with less than 1.5% organic matter or any soil type with more than 6% organic matter.

Tankmixes:

None

Use parameters:

Apply prior to planting or up to 3 days after planting.

Application near or after crop emergence may cause severe injury.

DO NOT APPLY TO FIELDS PREVIOUSLY TREATED WITH AUTHORITY IN THE PAST THREE YEARS (36 MONTHS).

Performance parameters:

This product needs adequate moisture to activate.

For best results apply the product as a pre-emergent surface application, up to 3 days after seeding.

Weeds controlled:

Authority will only control germinating weeds. Weeds that are present at application may not be controlled.

Kochia	Lamb's quarters
Redroot pigweed	Wild buckwheat

Rotational Crops:

Rotational Crop	Replant Interval (Months)
Alfalfa	12
Canola	24
Sunflowers	Anytime
Wheat, Spring	12
Wheat, Winter	16

For crops not listed in the table (ie lentils), a minimum rotational crop interval of 36 months must be observed.

If there is a lack of adequate or normal soil moisture due to drought conditions following application, the minimum rotational crop interval listed must be extended for one additional year.

Always read the product label.
